► Technical Specifications

Mono-crystalline solar panel 28watts
Converting Efficiency: $\geq 17\%$

Output Ports:

USB : 5V
DC : 10-15V

Operating Temperatures:

Optimal Operating: -20°C~ 50°C
Optimal Storage : -10°C~30°C

► Functional Overview

SECURE IT

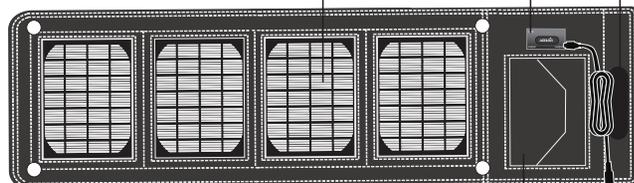

Use the strap to keep the solar panel tightly packaged up.

USB OUTPUT PORT

Charge your 5V USB devices directly

COLLECT THE POWER

Highly efficient solar cells deliver up to 28 watts of power.

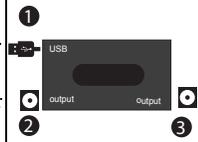

STOW IT

Use the solar panel internal pocket to neatly stow its charging cable.

DC OUTPUT PORT

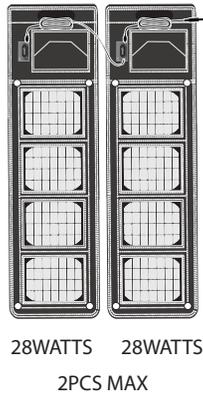

Charge your 10V-15V DC devices

Charging output		
No.	Part name	Maximum output
①	USB output port	5V/1A
②	DC output port	10-15V
③	5.5mm DC extension cable	10-15V

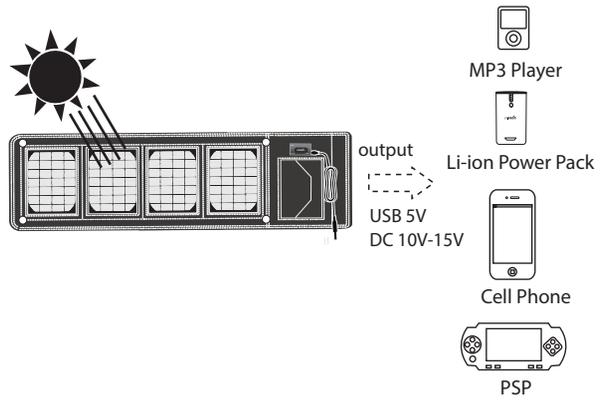

► How to collect more power from the sun?

You can connect two BSP-28 panels for additional power by plugging into the DC ports as shown in the image.

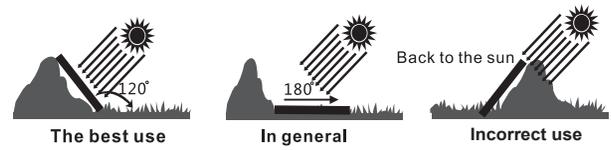

► SOLAR PANEL CAN CHARGE MOST USB DEVICES DIRECTLY.

► How to use the solar panel:

Unfold the solar panel, and place as shown below.

► Notes:

1. The solar panel should face the sun when it is in use
2. Keep the solar panel's surface clean
3. Avoid scratching/dropping the panel
4. Protect it from getting wet
5. Protect it from high temperature environments and fire
6. Please stop using your solar panel if it is damaged, drenched, deformed or broken
